PROFESSIONAL SUMMARY

DevOps Engineer with 5+ years of hands-on experience in AWS cloud architecture, CI/CD automation, containerization, monitoring, IaC, and system engineering. Strong background in building scalable infrastructures, optimizing deployments, improving observability, and reducing cloud costs. Skilled in global team collaboration and modern DevOps tooling.

SKILLS

- **Core Strengths:** AWS, Git/GitHub, CI/CD, Terraform, Docker, Monitoring (Grafana, CloudWatch, New Relic), Bash
- **Languages:** Python, Bash, Groovy, SQL, JSON
- **DevOps & Cloud:** AWS, Azure DevOps, Jenkins, GitHub Actions, CodePipeline, SonarQube, ECS, Lambda, Kubernetes (basics)
- **Monitoring/Logging:** Prometheus, Grafana, CloudWatch, New Relic
- **Other Tools:** Ansible, CloudFormation, Postman, Power BI, QuickSight

EXPERIENCE

- **Dev Centre House Ireland** Dubai, United Arab Emirates
DevOps Engineer — Full Time 25th Apr 2024 - Present
 - Designed and deployed scalable AWS architectures (EC2, S3, RDS, ALB, VPC, Lambda and many services) following best practices.
 - Implemented CI/CD pipelines with GitHub Actions and Jenkins, improving deployment speed by 80%.
 - Automated infrastructure provisioning using Terraform and CloudFormation templates.
 - Enhanced observability using CloudWatch, New Relic, and Grafana, improving system uptime to 99.9%.
 - Containerized applications using Docker and deployed on ECS, increasing system reliability.
 - Optimized AWS environments and applied security hardening, reducing cloud costs by 60%.
- **Voeux Information Technology LLC** Dubai, United Arab Emirates
DevOps Engineer — Contract Jan 2024 - Apr 2024
 - Configured Prometheus and Grafana for metrics collection and visualization.
 - Designed and maintained CI/CD pipelines ensuring stable and automated deployments.
 - Integrated OpenTelemetry with Dynatrace for full observability within microservices.
 - Collaborated with development and operations teams to streamline delivery pipelines.
- **3QSPACE LLC** Dubai, UAE
IT Support Engineer — Contract Nov 2023 - Dec 2023
 - Performed system upgrades and patching to ensure high availability.
 - Troubleshoot incidents and resolved issues across systems and applications.
 - Configured ERP modules using the Frappe framework.
- **ComplianceQuest Nepal Pvt. Ltd** Lalitpur, Nepal
Software Engineer (DevOps) Apr 2022 - Mar 2023
 - Maintained CI/CD pipelines using Jenkins, GitLab, and GitHub.
 - Designed cloud environments for Production, Staging, and QA.
 - Implemented AWS migration strategies and hybrid cloud solutions.
 - Developed automation scripts in Bash and PowerShell for deployment tasks.
 - Built logging pipelines using CloudWatch + ElasticSearch.
- **Percoid IT Solutions** Lalitpur, Nepal
DevOps & System Engineer Jun 2017 - Mar 2022
 - Managed Linux/Windows on-premises servers with 99% uptime.

- Built CI/CD pipelines using Azure DevOps for .NET applications.
- Containerized .NET apps with Docker and deployed on AWS ECS.
- Configured load balancers using Apache and Nginx.
- Worked with VMware, Vagrant, Oracle VM for lab and production environments.
- Maintained MSSQL, PostgreSQL, MySQL databases including backup/restore and scaling.

- **IT Training Nepal Pvt. Ltd**

Kathmandu, Nepal

Hardware & Network Support Engineer

Nov 2015 – May 2017

- Assembled and repaired computer hardware, laptops, and devices.
- Diagnosed and resolved networking issues.
- Improved performance and reliability of client systems.

PROJECTS

- **Three-Tier AWS Architecture using Terraform – ”SEEYOU GPT”** Built a scalable and secure 3-tier architecture on AWS using Terraform, Git, and GitHub Actions.
- **Serverless App on AWS Lambda – WrkWrk** Developed and deployed a serverless platform enabling temp-worker automation.
- **Django App on AWS ECS – Django App** Containerized and deployed Django on ECS using Terraform.

EDUCATION

- **Manipal Academy of Higher Education – MAHE Dubai**

Dubai, UAE

MBA – International Business - Business Analytics and Project Management

2023 – 2025

- **Sunway International Business School**

Kathmandu, Nepal

BCS (Hons.) Information Technology

2018 – 2021

CERTIFICATIONS

- Automation using Groovy & Bash Scripting – IBM (Udemy)
- RedHat Ansible for Automation (RH294)
- DevOps Assembly Lines & Hybrid Multi-Cloud Training – ComplianceQuest

ACCOMPLISHMENTS

- Reduced AWS cloud cost by 60% through optimization and best architecture practices (2021).

LEADERSHIP EXPERIENCE

- Event Lead – Teach For Nepal (2020)
